³ Information on the cases is based on Proctor, Robert. 2012. *Golden Holocaust: Origins of the Cigarette Catastrophe and the Case for Abolition*. Berkeley: University of California Press, 463. & The following online databases: <http://legacy.library.ucsf.edu>, <http://tobacodocuments.org>, <http://lawschool.courtroomview.com/experts>, & Westlaw. This profile is furthermore completed with information from personal correspondence with Mr. Stueck. In Engle Progeny Cases many depositions and testimonies are reused in other cases instead of solely in the case where the actual testimony was given for the first time. I list these cases separately because in each one the deposition or testimony was submitted as important evidence and thereby it influenced the court and the jury.
